

WV Project ECHO Chronic Lung Disease (CLD)

Overview and Expectations

October 16, 2017

Jay Mason

WV Project ECHO Manager

ECHO Overview

People need access to specialty care for their complex health conditions.

There aren't enough specialists to treat everyone who needs care, especially in rural and underserved communities.

ECHO trains primary care clinicians to provide specialty care services. This means more people can get the care they need.

Patients get the right care, in the right place, at the right time. This improves outcomes and reduces costs.

Process Overview

- Chronic Lung Disease ECHO sessions
 - 1st and 3rd Monday of each month from 8-9am via Zoom
 - 2 case presentations per session
 - Cases can be submitted at any time via the fillable case form
 - Will contact presenting providers no later than a week before to confirm
 - Recommendations will be sent to presenting provider after each session
 - 20 minute didactics on Chronic Lung Disease topic presented each week
 - Presentations will be done by either a “Hub” member or special guest speaker
 - Presentation slides will be available online for reference

Sample ECHO Session Agenda

- 8:00-8:05am: Welcome & Introductions
- 8:05-8:20am: 1st Case Presentation
- 8:20-8:35am: 2nd Case Presentation
- 8:35-8:55am: Didactic Presentation
- 8:55-9:00am: Announcements
- 9:00am: Adjourn

Expectations

- Attendance
 - Attendance is not mandatory for every session
 - Encourage participants to join via video conference
 - Any clinic or provider can sign-up for the ECHO project at anytime
- Case Presentations
 - Participating providers are not required to submit or present cases but it is strongly encouraged
 - Case presentations are what drive the sessions
- Continuing Education Credits
 - Attendance sheets will be submitted to CE office at WVU after each session
 - CE evaluation will be sent out electronically from the CE office at WVU
- Evaluation
 - An ECHO evaluation form will be emailed out quarterly
