

## West Virginia Clinical and Translational Science Institute

### Summer 2024 Research Scholar RFA

<b>DEADLINES:</b>  Letters of Intent Due: <b>January 16, 2024</b>  Full Applications Due: <b>March 1, 2024</b>  <b>CONTACTS:</b>  <b>Joan Lakoski, PhD</b> Co-Director, Investigator Development <a href="mailto:joan.lakoski@hsc.wvu.edu">joan.lakoski@hsc.wvu.edu</a> <b>Courtney DeVries, PhD</b> Co-Director, Professional Development <a href="mailto:courtney.devries@hsc.wvu.edu">courtney.devries@hsc.wvu.edu</a> <b>Kari Sisk, EdD</b> Assistant Director, Professional Development <a href="mailto:kari.maxwell@hsc.wvu.edu">kari.maxwell@hsc.wvu.edu</a>	<b>QUICK LINKS</b> <a href="#">General Overview &amp; Letter of Intent</a> <a href="#">Full Text Announcement</a> <a href="#">Eligibility</a> <a href="#">Application Instructions</a> <a href="#">Human Subjects Protection</a> <a href="#">Budget</a> <a href="#">Review and Selection Process</a> <a href="#">iLab Instructions</a>
---	--

## PART 1. OVERVIEW

The purpose of this program is to develop early stage investigators to become principal investigators (PIs) conducting research in the clinical and/or translational sciences. The desired outcomes for a Research Scholar include publication of peer-reviewed research and submission of applications for mentor-sponsored (e.g. NIH K-type) award, and eventually obtaining extramural research awards (e.g. NIH R-type) as an independent investigator. Appointment as a WVCTSI Research Scholar is available to faculty who have demonstrated the potential to become an independent researcher and will benefit from additional mentored research experiences in a productive scientific setting; this also includes newly independent researchers. Research Scholars are eligible to receive salary support for protected research time from the WVCTSI and a modest budget for research expenses. Pre-existing, committed departmental protected time for research/scholarship must remain in place for the duration of the Research Scholar appointment; the WVCTSI salary support\* is intended to supplement and enhance the departmental commitment.

### Required Letter of Intent (LOI)

To better serve those applying for West Virginia Clinical and Translational Science Institute (WVCTSI) Research Scholar Program, Letters of Intent (LOI) will be required from interested Principal Investigators. The proposed projects should address health care needs of West Virginia. Examples include, but are not limited to, the following health care issues:

- Addiction and Resultant Emerging Epidemics (hepatitis C)
- Drug Overdose
- Behavioral Health
- Cancer
- Cardiovascular Disease
- Chronic Lung Disease
- Neuroscience

The LOI must follow the template found [here](#).

**LOIs are required and must be submitted via iLab as a single PDF document on or before the deadline.**

The LOIs are used to facilitate review planning. In addition, an LOI may provide an opportunity for the applicant to receive additional feedback and guidance to further strengthen their full proposal application. Investigators may be asked to meet with WVCTSI staff to review their LOI and discuss specific aspects of their proposal.

**All investigators will receive an email notification of the status of the LOI request for permission to submit a full application.**

**Investigators whose projects are consistent with the WVCTSI mission and the scope of this RFA may be invited to submit full proposals. Unsolicited full proposals from Investigators who do not submit a LOI will not be reviewed or considered for funding.**

### **Budget**

PI Salary Support will be provided for up to 50% protected time for all activities as a Research Scholar in accordance with the WVCTSI and NIH guidelines, and the current NIH salary cap. (\$212,100) [Budget template](#). PI Salary request is separate to project costs.

For this funding cycle, the project costs are limited to a maximum of \$12,500 annually in total direct costs (12 months).

## **PART 2. FULL TEXT ANNOUNCEMENT**

### **Funding Opportunity Description**

WVCTSI is accepting Research Scholar applications for clinical and translational research focused on, but not limited to, specific health areas of importance to West Virginia and Appalachia at large. Of note, projects with significant laboratory based components must have a clear delineation of the plan for translation of the research with impact on human health.

The National Institutes of Health (NIH) defines clinical research as: (1) patient-oriented research; (2) epidemiologic and behavioral studies; and/or (3) outcomes research and health services research.

Per the NIH, translational research includes:

- The process of making discoveries in the research laboratory or in preclinical studies that will have an impact on human health and may lead to the development of studies in humans
- The process of applying discoveries generated during research in the laboratory, and in preclinical studies, to the development of trials and studies in humans
- Research aimed at enhancing the adoption of best practices in the community.

Cost-effectiveness of prevention and treatment strategies are also important aspects of translational science.

### **Award Project Period**

The scope of the proposed project should determine the project period. The maximum project period is twenty four (24) months.

### **Eligibility Information**

- Principal Investigator (PI) **must hold a faculty appointment** or equivalent at the time the award is announced. Appointments can be held at the following institutions: CAMC Institute/WVU

Charleston, Marshall University, West Virginia School of Osteopathic Medicine, and West Virginia University.

- For the purposes of this RFA, these are individuals who can independently apply for federal or non-federal investigator-initiated, peer-reviewed Research Project Grants (RPG). Individuals holding postdoctoral fellowships or other positions that lack independent status are not eligible to lead pilot projects.

### Application Instructions

*Note: All documents described below require the NIH PHS 398 Forms found [here](#).*

### Format Specifications

- **Font restrictions:** Use a font size of 11-point or larger. The only acceptable fonts are the following: Arial, Helvetica, Palatino Linotype, or Georgia. *Please use one single font throughout the document.*
- **Font color:** Black only. Type density, including characters and spaces, must be no more than 15 characters per inch. Type may be no more than six lines per inch.
- **Page Margins:** Use standard paper size (8 ½" x 11"). Use at least one-half inch margins (top, bottom, left, and right) for all pages. No information should appear in the margins. Specifically, do not enter the PI's name or page numbers in the margins (as was past practice with hard copy grant proposals). Do not include any information in a header or footer of the attachments.
- **Page Formatting:** Applicants must use a standard, single-column format for the text.
- **Figures, Graphs, Diagrams, Charts, Tables, Figure Legends, and Footnote:** You may use a smaller type size (9 or 10 point) but it must be in black, readily legible and follow the font typeface requirement. Color can be used in figures; however, all text must be in black, clear and legible.
- **Page Limits:** Although many sections of the grant application are described as separate sections, the page limits must be followed or the proposal will be returned without review and not considered for funding. In addition, the appendix should not be used to circumvent the established page limits.

**Applications must be submitted via iLab as a single PDF document by the close of business hours (5:00 pm EST) on or before the deadline. (March 1, 2024) (Please see Part 3. iLab INSTRUCTIONS and CONTACT INFORMATION)**

### Note:

- Do not scan documents unless absolutely necessary as this results in excessively large files
- Do not submit a PDF Portfolio
  - Instead, please use the "Combine Files" feature in Adobe Acrobat or equivalent file management software.
  - If one of your PDF documents cannot be combined, export it and save it as a Word file first. Combine this new Word file with the rest of your application using the "Combine Files" feature.

Please follow the detailed instructions below:

- Table 1 items are required for ALL applications.
- Table 2 items are required as applicable to your project.

*If you have any questions, please contact WVCTSI staff prior to submission.*

### Table 1. Required Content for ALL Full Applications

SECTION	DESCRIPTION	CONTENT LIMIT
Face Page	Please use the form provided	N/A
Cover Letter	a) Career Goals: Long-term (5-10 years) and short-term (1-2 years) b) Description of commitment to a career in research c) Current professional responsibilities and their relationship to the proposed activities during the award	2 pages

	<p>period; discussion of specific changes in daily duties if appointed as a WVCTSI Research Scholar</p> <p>d) Commitment to a focused research project and plan for limiting administrative or competing responsibilities during Research Scholar appointment</p> <p>e) Prior training and relationship to the applicant's immediate objectives and long- term career plans</p> <p>f) Research activities to date: including general information on publications, proposal submissions, awards and other relevant efforts</p> <p>g) Evidence of potential to develop into an independent research investigator</p> <p>h) External funding plan to sustain research program after Research Scholar period of performance (specific funding mechanism, target institute, and other relevant info) As applicable, include copy of FOA in the appendix of the application</p>	
<b>NIH Biosketch</b>	Please follow the <a href="https://grants.nih.gov/grants/forms/biosketch-blank-format-rev-10-2021.docx">NIH "Biosketch instructions – non-fellowship"</a> link and use the <a href="https://grants.nih.gov/grants/forms/biosketch-blank-format-rev-10-2021.docx">https://grants.nih.gov/grants/forms/biosketch-blank-format-rev-10-2021.docx</a> to format each biosketch.	5 pages
<b>Letters of Support</b>	<p>Letters of Support Guide here: Letters should be submitted with the full application package from each of the following individuals:</p> <ul style="list-style-type: none"> <li>a) Primary Mentor</li> <li>b) Each additional mentoring team member</li> <li>c) Department Chair, Division Head (if applicable), Center Director or Signature Program Lead</li> </ul>	N/A
<b>WVCTSI Mentoring Agreement</b>	Form Provided	NA
<b>Abstract/Summary</b>	<ul style="list-style-type: none"> <li>a) Your background and career development, research background and career goals</li> <li>b) Specific Aims and hypothesis, unique features/innovation, methodologies, and expected results</li> <li>c) Generalizability, relation to the field, general significance</li> </ul>	30 lines written in plain/lay language
<b>Specific Aims and Proposal (Candidate Information and Research Strategy)</b>	Please use the <a href="#">NIH PHS 398 Continuation Page forms (Continuation Format Page)</a> and include the sections below	6 pages total (see breakdown below)
	<p><b>A. Specific Aims/Objectives</b></p> <p>State concisely the goals of the proposed research and summarize the expected outcome(s), including the impact that the results of the proposed research will exert on the research field(s) involved.</p> <p>List succinctly the specific objectives of the research proposed, e.g., to test a stated hypothesis, create a novel design, solve a specific problem, challenge an existing paradigm or clinical practice, address a critical barrier to progress in the field, or develop new technology. <u>Applicants must identify how the study objectives and outcomes are of benefit to West Virginia/Appalachian patients and communities.</u></p>	<p>1 page (Specific Aim)</p> <p>5 pages (Candidate Information and Research Strategy combined)</p>
	<p><b>B. Candidate Information</b></p> <p>Organize the Candidate Information in the following way:</p>	
	<p><b>1. Candidate's Background</b></p> <ul style="list-style-type: none"> <li>a) Describe the candidate's commitment to a health-related research career. Describe all the candidate's professional responsibilities in the grantee institution</li> </ul>	

	<p>and elsewhere and describe their relationship to the proposed activities on the career award.</p> <p>b) Describe prior training and how it relates to the objectives and long-term career plans of the candidate.</p> <p>c) Describe the candidate's research efforts to this point in his/her research career, including any publications, prior research interests and experience.</p> <p>d) Provide evidence of the candidate's potential to develop into an independent investigator.</p>	
	<p><b>2. Candidate's Goals and Objectives</b></p> <p>a) Describe a systematic plan: (1) that shows a logical progression from prior research and training experiences to the research and career development experiences that will occur during the career award period and then to independent investigator status; and (2) that justifies the need for further career</p>	
	<p><b>3. Candidate's Plan for Career Development/Training Activities During Award Period</b></p> <p>a) The candidate and the mentor are jointly responsible for the preparation of the career development plan. A career development timeline is often helpful. The mentor and any co-mentors may form a mentoring team to assist with the development of a program of study or to monitor the candidate's progress through the career-development program. Describe how the candidate and mentors will meet and interact.</p> <p>b) The didactic (if any) and the research aspects of the plan must be designed to develop the necessary knowledge and research skills in scientific areas relevant to the candidate's career goals.</p> <p>c) Describe the professional responsibilities/activities including other research projects beyond the minimum required effort. Explain how these responsibilities/activities will help ensure career progression to achieve independence as an investigator.</p> <p>d) Describe plans for developing and submitting an external grant application for their research program.</p>	
	<p><b>B. Research Plan</b></p> <p>a) A sound research project that is consistent with the candidate's level of research development and objectives of his/her career development plan must be provided. The research description should demonstrate the quality of the candidate's research thus far and also the significance, innovation, creativity and approach, and the ability of the candidate to conduct and complete the research plan.</p> <p>b) The application must also describe the relationship between the mentor(s)'s research activities and the candidate's proposed research plan.</p> <p>c) If the applicant is proposing to gain experience in a clinical trial, ancillary study to a clinical trial or a clinical trial feasibility study as part of his or her research career development, describe the relationship of the proposed research project to the clinical trial.</p> <p>Organize the Research Plan in the specified order and using the instructions provided below.  <u>Start each section with the appropriate section heading: Significance, Innovation, and Approach.</u> Please include a</p>	

	clear statement of the research hypothesis and expected outcomes from completion of the proposed research.	
	<p>1. Significance</p> <p>a) Explain how the project is of translational significance to the health of persons in West Virginia and/or Appalachia.</p> <p>b) Explain how the proposed project will improve scientific knowledge, technical capability, and/or clinical practice.</p> <p>c) Describe how relevant concepts, methods, technologies, treatments, services, or preventative interventions will be changed if the proposed aims are achieved.</p> <p>2. Background</p> <p>Explain how the project is of translational significance to the health of persons in West Virginia and/or Appalachia.</p> <p>3. Hypothesis</p> <p>Clearly and briefly define the hypothesis of the project.</p>	
	<p>4. Innovation</p> <p>a) Explain how the application challenges and seeks to shift current research or clinical practice paradigms.</p> <p>b) Describe any novel, theoretical concepts, approaches or methodologies, instrumentation or intervention(s) to be developed or used, and any advantage over existing methodologies, instrumentation or intervention(s).</p> <p>c) Explain any refinements, improvements, or new applications of theoretical concepts, approaches or methodologies, instrumentation or interventions.</p>	
	<p>5. Approach</p> <p>a) Describe in detail the overall strategy, methodology, sample selection and size, subject/patient enrollment, and analyses to be used to accomplish the specific aims of the project. Include how the data will be collected, analyzed, and interpreted and any resource sharing plans as appropriate.</p> <p>b) Discuss potential problems, alternative strategies, and benchmarks for success anticipated to achieve the aims.</p> <p>c) Discuss plans to ensure rigor and reproducibility of the research findings</p> <p>d) If the project is in the early stages of development, describe any strategy to establish feasibility, and address the management of any high risk aspects of the proposed work. Clearly describe how each partner will be engaged in the development and/or implementation of the pilot study.</p>	
	Please use the <a href="#">NIH PHS 398 Continuation Page form(s) (Continuation Format Page)</a> to list cited literature. Given the length of the application, investigators should strive to provide a relevant, although not exhaustive bibliographic review.	
<b>References</b>		No limit

Budget & Budget Justification		No limit
-------------------------------	--	----------

## Budget

### General

- Personnel: if possible, please name co-investigators, graduate students (stipends are not an eligible expense), undergraduate students, or postdoctoral associates in your budget justification. Naming an individual in the budget justification does not represent a commitment on your part to hire that individual.
- Equipment: equipment costs (must be equal or greater than \$5,000 single unit purchase price, useful life of one year or more) must be justified via a vendor quote for the item(s) you are requesting.
- Travel: include a list of the names of conferences under consideration for attendance in the budget for each year of the proposal and indicate whether they are domestic or international (\$2,000.00 maximum). For field work and other research-related travel, please provide detailed information about the number of people making each trip, its duration, and other information.
- Materials and Supplies: provide a list of the general types of expendable materials and supplies that will, in your estimation, be required to carry out the research you are proposing. Supplies should be broken down into common categories.
- Publication/Documentation/Dissemination Costs: \$2,000.00 maximum.
- Consultants: provide justification for the rate. If travel and subsistence costs are not factored into the consultant(s) cost, these should be justified separately, but still be considered a part of the total cost of the consultant(s).
- Computer Costs: provide vendor quote(s) or some other published source for the rate being charged to the grant. Also be prepared to justify why the computing needs could not be met using your office, department, or institutional computing resources.
- Other Direct Costs: Provide quotes, catalog prices, or other published information to justify proposed rates for other costs.

### Allowable Costs

- Funds are to be used for the conduct of the project, including supplies, subject payments, assays, etc.
- \* Salary and fringe support for administrative assistance, postdoctoral trainees, and clinical residents and fellows are permitted. *Applicants must account for fringe benefit costs when considering research assistant salary levels.*
- Travel funds that are needed for study conduct are allowed, if essential. Travel to collect data or for collaboration purposes can be justified separately in the budget section.
- Data analysis costs
- Research assistant salary support; applicants must account for fringe benefit costs when considering research assistant salary levels.
- Non-faculty personnel salary support
- Project specific specimen collection/analysis or testing
- Chemistry and biological lab supplies
- Purchase of cell lines, cultures reagents, etc.
- Animal purchase and housing costs
- Specimen collection/analysis or testing
- Participant reimbursement
- Publication Costs (\$2,000 maximum)
- Conference Travel (\$2,000 maximum)

### Unallowable Costs

- \* Funding is not available for student stipends.

- Funding will not be awarded as bridge funding for ongoing, competitive projects.
- Facilities and administrative costs, also known as indirect costs, are not permitted.

**Note on students:** Unfortunately, the NIH does not allow us to pay for support for graduate students who are receiving a stipend or a salary. This policy applies to all students, i.e. PhD, Masters, and Undergraduates. However, graduate or undergraduate students who are NOT on salaried assistantships may be hired as a lab technician or student worker paid **hourly** on a WVCTSI research project.

If you are unsure whether a student can receive funding from the award, please contact us.

<b>IACUC Submission</b>	IACUC approval or exemption is expected within 60 days following award notification.	
<b>IRB</b>	<ul style="list-style-type: none"> <li>• IRB approval or exemption is expected within 60 days following award notification.</li> <li>• Any human subjects' study will require the utilization of the COE regulatory support from its institution.</li> </ul> <p>WVU Contact: Michelle Chidester, <a href="mailto:michelle.chidester@hsc.wvu.edu">michelle.chidester@hsc.wvu.edu</a>  MU Contact: Usha Murughiyan, <a href="mailto:murughiyan@marshall.edu">murughiyan@marshall.edu</a>  CAMC: Dan Lucas, <a href="mailto:Dan.Lucas@camc.org">Dan.Lucas@camc.org</a>  <u>Please be advised that IRB protocols must be titled the same as the grant project.</u></p>	

## Review and Selection Process

**Submitted applications will undergo peer review. Finalists may be asked to give a short presentation and participate in an interview.**

### A. Overall Impact

Reviewers will provide an overall impact score to reflect their assessment of the likelihood for the scholar to exert a sustained, powerful influence on the research field(s) involved, in consideration of the following review criteria and additional review criteria (as applicable for the project proposed).

### B. Scored Review Criteria

Reviewers will consider each of the review criteria below in the determination of scientific merit and give a separate score for each.

- Candidate
- Career Development Plan
- Research Plan
- Mentoring and Institutional Environment
- Potential for Extramural Funding
- Clinical Trials only – Study Timeline

### C. Additional Review Criteria

As applicable for the project proposed, reviewers will evaluate the following additional items while determining scientific and technical merit, and in providing an overall impact score, but will not give separate scores for these items.

- Protections for Human Subjects
- Inclusion of Women, Minorities, and Children
- Vertebrate Animals
- Biohazards
- Radiation Safety and Hazardous Materials
- Data Sharing Plans
- Budget and Period of Support

As part of the scientific peer review, all applications:

- Will be assessed on the scientific and technical merit of the proposed project and relevance of the proposed project to outlined programmatic priorities.
- May undergo a selection process in which only those applications deemed to have the highest scientific and technical merit (generally the top half of applications under review) will be discussed and assigned an overall impact score.
- Will receive a written critique.

Final funding decisions will be made by WVCTSI leadership, taking into consideration programmatic priorities and availability of funds. Appeals of initial peer review will not be accepted for applications submitted in response to this RFA.

## Award Notices

The formal notification in the form of a Notice of Grant Award (NOA) will be provided to the applicant via email for successful applications.

**Selection of an application for award is NOT an authorization to begin performance. Any costs incurred before receipt of the NGA are at the recipient's risk.**

## PART 3. iLab INSTRUCTIONS & CONTACT INFORMATION

### CONTACT INFORMATION

**We encourage inquiries concerning this funding opportunity and welcome the opportunity to answer questions from potential applicants.**

#### **ATTENTION**

In order to streamline and better track services, WVCTSI uses iLab. **We ask investigators to submit requests for services through iLab in order for us to best address your specific concerns.**

*WVCTSI continues to offer Research Scholar consults to all of its members free of charge. If you are not already a member, you can sign up [here](#) (WVCTSI is also completely free and does not require WVU credentials).*

#### **A. To create an iLab account using WVU credentials:**

1. Go to <https://wvu.corefacilities.org/account/login>
2. Sign in using your WVU credentials. This should re-direct you to the standard WVU login page.
3. Once logged in, select “CTSI Community” as your lab. If you are affiliated with another lab at WVU, please **do not select your personal lab**. You will not be able to access WVCTSI services if you do not choose CTSI Community.

#### **B. To create an iLab account for those with WVPBRN credentials:**

1. Go to <https://wvu.corefacilities.org/account/984/signup>
2. Enter your email address, and agree to iLab’s privacy and security policies.
3. Input your personal information and enter “WVPBRN Community” as your institution.
  - For primary role, do NOT choose PI. Please select “Other”.
4. Input “WVPBRN Community Group” for your lab. If you are currently affiliated with a lab, please **do not select your personal lab** or input a new lab.
5. For billing address, enter WVCTSI’s address: “PO Box 9102, Morgantown, WV 26506-9102”
6. An iLab staff member will be in touch with you shortly to verify your account.

#### **C. To create an iLab account for Partner Sites with non-WVU and non-WVPBRN credentials:**

1. Go to <https://wvu.corefacilities.org/account/984/signup>
2. Enter your email address, and agree to iLab’s privacy and security policies.
3. Input your personal information and enter “WVCTSI” as your institution.
  - For primary role, do NOT choose PI. Please select “Other”.
4. Input “WVCTSI Partners” for your lab. If you are currently affiliated with a lab, please **do not select your personal lab** or input a new lab.
5. For billing address, enter WVCTSI’s address: “PO Box 9102, Morgantown, WV 26506-9102”
6. An iLab staff member will be in touch with you shortly to verify your account.
7. For the question “Is there another person in your lab who helps manage lab memberships, fund assignments, and spending approval?” choose “No.”
8. Accept iLab’s Terms and Conditions and submit your registration. An iLab staff member will be in touch with you shortly to confirm your credentials.
9. Let Kari Sisk know if you have received your email notification from iLabs and you will be granted access to the Core you need access to.

### To submit a Research Scholar Letter of Intent or Full Application:

1. Log into iLab at <https://wvu.corefacilities.org>
2. From the home page, locate the Menu in the upper left corner by clicking on the 3 horizontal lines next to “Agilent CrossLab”
3. Click on “Core Facilities”
4. From the list of cores, select the WVCTSI Investigator Development Services.
  - Marshall and WVSOM investigators: search for WVCTSI (select “Cores are Other Institutions” next to the search box).
5. Make sure you are in the “Request Services” tab located below the West Virginia University logo
6. Scroll down Research Scholar Submission and select “initiate request”
7. Complete the form and click Submit
8. You will be automatically redirected to your list of Requests. Make sure that it has indeed been submitted. If the request is labeled as Waiting to Submit, click on label and select submit one more time.

**Note:** WVCTSI values investigators from all institutions and aims to make the iLab signing up process as convenient as possible. If you experience any technical difficulties, please contact us and we will be glad to assist you with resolving any issues.
